INDEX OF SUBJECTS

Agricultural research through a 'new product development' lens (Sumberg and Reece), 295

Agriculture and Rural Development Planning, By Akroyd, H. D., reviewed by Mike Daw, 493

Agrobiotechnology and Plant Tissue Culture, edited by Bhowjani, S. and Soh, W-H., reviewed by Steve Millam, 496

Apples: Botany, Production and Uses, edited by Ferree, D. C. and Warrington, I. J., reviewed by C. J. Atkinson., 389

Arachis pintoi: Its early adoption in Huetar Norte, Costa Rica (Wünscher, Schultze-Kraft, Peter and Rivas), 257

Argentina: Response of late-planted cotton to the application of a growth regulator *(chlorocholine chloride*, Cyocel 75) (Mondino, Peterlin and Garay), 381

Argentina: Supplemental pollination – increasing olive *(Olea europea)* yields in hot, arid environments (Ayerza and Coates), 481

Assessment of integrated *Striga hermonthica* control and early adoption by farmers in northern Nigeria (Ellis-Jones, Schulz, Douthwaite, Hussaini, Oyewole, Olanrewaju and White), 353

Australia: Experimental assessment of the impact of defoliation on growth and production of water-stressed maize and cotton plants (Yang and Midmore), 189

Bacterial Disease Resistance in Plants. Molecular Biology and Biotechnological Applications, by Vidhyasekaran, P., reviewed by Ian Toth, 389

Barley *(Hordeum vulgare)*: Production methods and farming in its major growing regions of the West Bank, Palestine (Abu-Alrub, Joma and Christianse), 179

Benin: Cassava leaf litter estimation in on-farm trials (Carsky and Toukourou), 315

Benin: Decentralized and participatory cotton breeding: farmer-breeders' results are promising (Lançon, Lewicki, Djaboutou, Chaume and Sekloka and farmer-breeders: Assogba, Takpara and Orou Mousse), 419

Biology of Seeds. Recent Research Advances, (The), by Nicolas, G., Bradford, K. J., Come, D., Pritchard, H. W., reviewed by Stan Matthews, 390

Biomass transfer technologies: Potential in sustaining vegetable production in the wetlands *(dambos)* of eastern Zambia (Kuntashula, Mafongoya, Sileshi and Lungu), 37

Biomass transfer technologies and legume cover crop for soil criteria, preference ranking and logit regression analysis: Farmer participatory evaluation (Nyende and Delve), 77

Biotechnology and Sustainable Development: Voices of the South and North, edited by Seregeldin, I. and Persley, G. J., reviewed by G. Hahne, 389

Carthamus tinctorius See Safflower

Cassava leaf litter estimation in on-farm trials (Carsky and Toukourou), 315

CGIAR: A framework for enhancing and guarding the relevance and quality of science (Kassam, Gregersen, Freres, Javier, Harwood, de Janvry and Cernea), 1

CGIAR: Towards a regional approach to research for it and its partners (de Janvry and Kassam), 159

Chemical and Isotopic Groundwater Hydrology. 3rd Edition, by E. Mazor, reviewed by C. Scrimgeour, 496

Chlorocholine chloride (Cyocel 75): Response of late-planted cotton to its application (Mondino, Peterlin and Garay), 381

Cocoa: Rootstock effects in Sabah, Malaysia (Pang Thau Yin), 445

Coconut plantation on peat: Discovery of the insect pest *Sufetula* spp., a factor limiting yields, (Bonneau, Husni, Philippe, Somchit, Jourdan and Lubis), 53

Cocos nucifera See Coconut

Concise Encyclopedia of Temperate Tree Fruit, edited by Baugher, T. A. and Singha, S., reviewed by K. M. Evans, 273

Coping with Climate Variability – The Use of Seasonal Climate Forecasts in Southern Africa, edited by O'Brien, K. and Vogel, C., reviewed by D. K. L. MacKerron, 271

Coppicing fallows: Propagation and management of *Gliricidia sepium* in sub-humid eastern Zambia (Chintu, Mafongoya, Chirwa, Kuntashula, Phiri and Matibini), 341

Coppicing fallows: Subsoil nitrogen dynamics as affected by planted tree legumes in eastern Zambia (Chintu, Mafongoya, Chirwa, Mwale and Matibini), 327

Costa Rica: Early adoption of the tropical forage legume *Arachis pintoi* in Huetar Norte (Wünscher, Schultze-Kraft, Peter and Rivas), 257

Côte d'Ivoire: influence of mineral fertilizer application and plant nutrition on plant-parasitic nematodes in upland and lowland rice and its implications in long term agricultural research trials (Coyne, Sahrawat and Plowright), 245
Cotton: Response of late-planted crop to the application of a growth regulator (*chlorocholine chloride*, Cycocel 75) (Mondino, Peterlin and Garay), 381
Cotton and maize: Experimental assessment of the impact of defoliation on their growth and production under water stress (Yang and Midmore), 189
Cotton and maize in a semi-arid area of Zimbabwe: Effect of on-farm seed priming on emergence, growth and yield (Murungu, Chiduza, Nyamugafata, Clark and Whalley), 23
Cotton breeding (decentralized and participatory): farmer-breeders' results in Benin are promising (Lançon, Lewicki, Djaboutou, Chaume and Sekloka and farmer-breeders: Assogba, Takpara and Orou Mousse), 419
Crop management and genetic improvement strategies: implications of whole plant value of grain and straw (Schiere, Joshi, Seetharam, Oosting, Goodchild, Deinum and Van Keulen), 277
Crop Management and Postharvest Handling of Horticultural Products. Volume III – Crop Fertilization, Nutrition and Growth. Edited by Dris, R., Niskanen, R. and Mohan Jain, S., reviewed by Alan Scaife, 494
Crop Production in Saline Environments: Global and Integrative Perspectives, edited by Goyal, S. G., Sharma, S. K. and Rains, D. W., reviewed by Blair M. McKenzie, 391
Crop Variety Improvement and its Effects on Productivity: The Impact of International Agriculture Research, edited by Evenson, R. E. and Gollin, D., reviewed by James Watson, 142
Cycocel 75 (*chlorocholine chloride*): Response of late-planted cotton to its application (Mondino, Peterlin and Garay), 381

Decentralized and participatory cotton breeding in Benin: farmer-breeders' results are promising (Lançon, Lewicki, Djaboutou, Chaume and Sekloka and farmer-breeders: Assogba, Takpara and Orou Mousse), 419
Defoliation: Experimental assessment of its impact on growth and production of water-stressed maize and cotton plants (Yang and Midmore), 189
Discovery of a factor limiting yields in a coconut plantation on peat: The insect pest *Sufetula* spp. (Bonneau, Husni, Philippe, Somchit, Jourdan and Lubis), 53

Early adoption of the tropical forage legume *Arachis pintoi* in Huetar Norte, Costa Rica (Wünscher, Schultze-Kraft, Peter and Rivas), 257
Ecoagriculture: Strategies to Feed the World and Save Biodiversity, by McNeely, A. and Scherr, J., reviewed by J. T. Walker, 139
Ecology of Soil Decomposition,(The), by Adl, S. M., reviewed by Ron E. Wheatley, 393
Effect of on-farm seed priming on emergence, growth and yield of cotton and maize in a semi-arid area of Zimbabwe (Murungu, Chiduza, Nyamugafata, Clark and Whalley), 23
Effects of fruit thinning on 'Sensation' mango (*Mangifera indica*) trees with respect to fruit quantity, quality and tree phenology (Yeshitela, Robbertse and Fivas), 433
Encyclopedia of Soil Science, edited by Lal, R., reviewed by Bernard Tinker, 144
Encyclopedic Dictionary of Plant Breeding and Related Subjects, by Schlegel, R. H. J., reviewed by N. L. Innes, 270
Ethiopia: Participatory on-farm conservation tillage trial in highland vertisols: the impact of potassium application on crop yields (Astatke, Mamo, Peden and Diedhiou), 369
Ethiopia : Participatory evaluation of the performance of some improved bread wheat (*Triticum aestivum*) varieties in the Jijiga plains (Jalleta), 89
Evolution and Adaptation of Cereal Crops, edited by Chopra, V. L. and Prekash, S., reviewed by Brian Forster, 141
Experimental assessment of the impact of defoliation on growth and production of water-stressed maize and cotton plants (Yang and Midmore), 189

Fallowing and green manuring: Impact on soil conditions and the growth of sugar cane (Nixon and Simmonds), 127
Farmer-breeders' results in decentralized and participatory cotton breeding in Benin are promising (Lançon, Lewicki, Djaboutou, Chaume and Sekloka and farmer-breeders: Assogba, Takpara and Orou Mousse), 419
Farmer participatory evaluation of legume cover crop and biomass transfer technologies for soil criteria, preference ranking and logit regression analysis (Nyende and Delve), 77
Farmers' perception of the *Striga* problem and its control in northern Nigeria (Emechebe, Ellis-Jones, Schulz, Chikoye, Douthwaite, Kureh, Tarawali, Hussaini, Kormawa and Sanni), 215
Fertilization: Influence of mineral fertilizer application and plant nutrition on plant-parasitic nematodes in upland and lowland rice in Côte d'Ivoire and its implications in long term agricultural research trials (Coyne, Sahrawat and Plowright), 245
Forest Farms of Kandy and Other Gardens of Complete Design,(The), by McConnell, D. J. with Dharmapala, K. A. E., Upawana, G. K. and Attanayake, S. R., reviewed by G. R. Squire, 272

Framework for enhancing and guarding the relevance and quality of science: The case of the CGIAR (Kassam, Gregersen, Freres, Javier, Harwood, de Janvry and Cernea), 1
Fruit quantity, quality and tree phenology of 'Sensation' mango *(Mangifera indica)* trees: Effects of fruit thinning (Yeshitela, Robbertse and Fivas), 433

Genetic Diversity of Cultivated Tropical Plants, edited by Hamon, P., Seguin, M., Perrier, X. and Glaszmann, J-C., reviewed by Nigel Maxted, 494
Genetic improvement strategies and crop management: implications of whole plant value of grain and straw (Schiere, Joshi, Seetharam, Oosting, Goodchild, Deinum and Van Keulen), 277
Genotype by environment interaction and selection in true potato seed breeding (Ortiz and Golmirzaie), 99
Gliricidia sepium: Propagation and management of planted fallows in sub-humid eastern Zambia (Chintu, Mafongoya, Chirwa, Kuntashula, Phiri and Matibini), 341
Gossypium hirsutum See cotton
Grain and straw for whole plant value: implications for crop management and genetic improvement strategies (Schiere, Joshi, Seetharam, Oosting, Goodchild, Deinum and Van Keulen), 277
Green manure crops and short season legumes: Incorporation into maize-based systems in the moist Guinea savannah of West Africa (Franke, Oyewole and Bako), 463
Green manuring and fallowing: Impact on soil conditions and the growth of sugar cane (Nixon and Simmonds), 127
Groundnut by Schilling, R. and Gibbons, R., reviewed by F. M. Quinn, 140
Growth regulator application: Response of late-planted cotton to the application of *chlorocholine chloride* (Cycocel 75) (Mondino, Peterlin and Garay), 381

Handbook of Formulas and Software for Plant Geneticists and Breeders, edited by Kang, M., reviewed by M. J. Kearsey, 395
Handbook of Processes and Modeling in the Soil-Plant System, edited by Benbi, D. K. and Nieder, R., reviewed by B. Marshall and R. Wheatley, 496
Handbook of Soil Acidity, edited by Rengel, Z., reviewed by Stephen Nortcliff, 393
Hill farmers' agronomic practices in Nepal: Implications for crop improvement in maize (Tiwari, Brook and Sinclair), 397
Hordeum vulgare See Barley

Impact of fallowing and green manuring on soil conditions and the growth of sugar cane (Nixon and Simmonds), 127
Implications of hill farmers' agronomic practices in Nepal for crop improvement in maize (Tiwari, Brook and Sinclair), 397
Improving the yield of Mung Bean *(Vigna radiata)* in the North West Frontier Province of Pakistan using on-farm seed priming (Rashid, Harris, Hollington and Rafiq), 233
Incorporating short-season legumes and green manure crops into maize-based systems in the moist Guinea savannah of West Africa (Franke, Oyewole and Bako), 463
India: Yield responses of winter (rabi) forage crops to irrigation with saline drainage water (Yadav, Kumar, Lal and Batra), 65
Indigenous Management of Wetlands: Experiences in Ethiopia, by Dixon, A. B., reviewed by Paul Kiepe, 269
Indonesia: Discovery of *Sufetula* spp., an insect pest, limiting yields in a coconut plantation on peat (Bonneau, Husni, Philippe, Somchit, Jourdan and Lubis), 53
Influence of mineral fertilizer application and plant nutrition on plant-parasitic nematodes in upland and lowland rice in Côte d'Ivoire and its implications in long term agricultural research trials (Coyne, Sahrawat and Plowright), 245
Integrated Natural Resource Management: Linking Productivity, the Environment and Development, edited by Campbell, B. M. and Sayer, J. A., reviewed by R. W. Smith, 271
Intellectual Property Rights in Agricultural Biotechnology. 2nd Edition, edited by Erbisch, F. H. and Maredia, K. M., reviewed by W. H. Macfarlane Smith, 497
Intercrops and sole crops: Water uptake and use by morphologically contrasting maize/pea cultivars in temperate conditions (Kanton and Dennett), 201
Invasive Plant Species of the World, By Weber, E., reviewed by G. R. Squire and C. Hawes, 494
Irrigation with saline drainage water: Yield responses of winter (rabi) forage crops (Yadav, Kumar, Lal and Batra), 65

Knowing Poverty 2002: Critical Reflections on Participatory Research and Policy, edited by Brock, K. and McGee, R., reviewed by Amir Kassam, 142

Landscape Agroecology, by Wojtkowski, P. A., reviewed by Carol Duffus, 495
Lebanon: Safflower agronomic characters, yield and economic revenue in comparison with other rain-fed crops in a high-elevation, semi-arid Mediterranean environment (Yau), 453
Legume cover crop and biomass transfer technologies for soil criteria, preference ranking and logit regression analysis: Farmer participatory evaluation (Nyende and Delve), 77

Legumes (short season) and green manure crops: Incorporation into maize-based systems in the moist Guinea savannah of West Africa (Franke, Oyewole and Bako), 463
Long term agricultural research trials: Implications of the influence of mineral fertilizer application and plant nutrition on plant-parasitic nematodes in upland and lowland rice in Côte d'Ivoire(Coyne, Sahrawat and Plowright), 245

Maize: Implications of hill farmers' agronomic practices in Nepal for crop improvement (Tiwari, Brook and Sinclair), 397
Maize: Water uptake and use by morphologically contrasting cultivars of pea and maize in sole and intercrops in temperate conditions (Kanton and Dennett), 201
Maize and cotton: Experimental assessment of the impact of defoliation on their growth and production under water stress (Yang and Midmore), 189
Maize and cotton in a semi-arid area of Zimbabwe: Effect of on-farm seed priming on emergence, growth and yield (Murungu, Chiduza, Nyamugafata, Clark and Whalley), 23
Maize-based systems: Incorporation of short-season legumes and green manure crops in the moist Guinea savannah of West Africa (Franke, Oyewole and Bako), 463
Malaysia (Sabah): Rootstock effects on cocoa (Pang Thau Yin), 445
Management of Agricultural Drought: Agronomic and Genetic Options, edited by Saxena, N. P., reviewed by Barry Pound, 273
Managing Soil Quality. Challenges in Modern Agriculture, edited by Schjonning, P. Elmholt, S. and Christensen, B. T., reviewed by Iain M. Young, 394
Mango *(Mangifera indica)* ('Sensation') trees: Effects of fruit thinning with respect to fruit quantity, quality and tree phenology (Yeshitela, Robbertse and Fivas), 433
Manihot esculenta See Cassava
Mediterranean region: Safflower agronomic characters, yield and economic revenue in comparison with other rain-fed crops in a high-elevation, semi-arid environment (Yau), 453
Mineral fertilizer application and plant nutrition: Influence on plant-parasitic nematodes in upland and lowland rice in Côte d'Ivoire and its implications in long term agricultural research trials (Coyne, Sahrawat and Plowright), 245
Mixed farming sysems in transition: The case of five villages along a rainfall gradient in north-west Syria (Rischkowsky, Thomson, Shnayien and King), 109
Mucuna: Incorporating short-season legumes and green manure crops into maize-based systems in the moist Guinea savannah of West Africa (Franke, Oyewole and Bako), 463
Multifunctional Agriculture: A New Paradigm for European Agriculture and Rural Development, edited by van Huylenbroeck, G. and Durand, G., reviewed by Alan C. Jackson, 392
Mung Bean *(Vigna radiata)*: Improving yield in the North West Frontier Province of Pakistan using on-farm seed priming (Rashid, Harris, Hollington and Rafiq), 233

Nematodes (plant-parasitic): Influence of mineral fertilizer application and plant nutrition on in upland and lowland rice in Côte d'Ivoire and its implications in long term agricultural research trials (Coyne, Sahrawat and Plowright), 245
Nepal: Implications of hill farmers' agronomic practices for crop improvement in maize (Tiwari, Brook and Sinclair), 397
'New product development' applied to agricultural research (Sumberg and Reece), 295
Nigeria: An assessment of integrated *Striga hermonthica* control and early adoption by farmers in the north (Ellis-Jones, Schulz, Douthwaite, Hussaini, Oyewole, Olanrewaju and White), 353
Nigeria: Farmers' perception of the *Striga* problem and its control in the north (Emechebe, Ellis-Jones, Schulz, Chikoye, Douthwaite, Kureh, Tarawali, Hussaini, Kormawa and Sanni), 215
Nigeria: Incorporating short-season legumes and green manure crops into maize-based systems in the moist Guinea savannah of West Africa (Franke, Oyewole and Bako), 463
Nitrogen dynamics in the subsoil as affected by planted coppicing tree legume fallows in eastern Zambia (Chintu, Mafongoya, Chirwa, Mwale and Matibini), 327
Nutrients for Sugar Beet Production: Soil–Plant Relationships, by Draycott, A. P. and Christenson, D. R., reviewed by P. J. Gregory, 391

Olea europea See Olive
Olive *(Olea europea)*: increasing yields by supplemental pollination in hot, arid environments (Ayerza and Coates), 481
On-farm trials for cassava leaf litter estimation (Carsky and Toukourou), 315
Organic Agriculture: Sustainability, Markets and Policies. Proceedings of the OECD Workshop on Organic Agriculture, Washington, DC, 23–26 September 2002, reviewed by Garry Robertson, 270
Organic Fruit Growing, by Lind, K., Schloffer, K., Innerhofer, G. and Meister, H., reviewed by R. Brennan, 390
Oryza sativa See rice

Pakistan: Improving the yield of Mung Bean *(Vigna radiata)* in the North West Frontier Province using on-farm seed priming (Rashid, Harris, Hollington and Rafiq), 233
Participatory evaluation of the performance of some improved bread wheat *(Triticum aestivum)* varieties in the Jijiga plains of eastern Ethiopia (Jalleta), 89
Participatory on-farm conservation tillage trial in the Ethiopian highland vertisols: the impact of potassium application on crop yields (Astatke, Mamo, Peden and Diedhiou), 369
Pasture development: Early adoption of the tropical forage legume *Arachis pintoi* in Huetar Norte, Costa Rica (Wünscher, Schultze-Kraft, Peter and Rivas), 257
Pea: Water uptake and use by morphologically contrasting cultivars of pea and maize in sole and intercrops in temperate conditions (Kanton and Dennett), 201
Peru: Genotype by environment interaction and selection in true potato seed breeding (Ortiz and Golmirzaie), 99
Pesticides: Problems, Improvements and Alternatives, edited by den Hond, F., Groenewegen, P. and van Straalen, N. M., reviewed by S. C. Gordon, 142
Pisum sativum See pea
Plant nutrition and mineral fertilizer application: Influence on plant-parasitic nematodes in upland and lowland rice in Côte d'Ivoire and its implications in long term agricultural research trials (Coyne, Sahrawat and Plowright), 245
Plant Resources of South-East Asia No 17. Fibre Plants, edited by Brink, M. and Escobin., R. P., reviewed by J. R. Hillman, 271
Plant Tissue Culture: 100 years since Gottlieb Haberlandt, by Laimer, M. and Rucker, W., reviewed by Steve Millam, 141
Potassium application impact on crop yields: Participatory on-farm conservation tillage trial in the Ethiopian highland vertisols: (Astatke, Mamo, Peden and Diedhiou), 369
Potato: Selection and interaction of genotype and environment in true seed breeding (Ortiz and Golmirzaie), 99
Potential of biomass transfer technologies in sustaining vegetable production in the wetlands *(dambos)* of eastern Zambia (Kuntashula, Mafongoya, Sileshi and Lungu), 37
Principles of Plant Protection, by Ebbels, D. L., reviewed by W. J. Rennie, 273
Production methods and farming in major barley *(Hordeum vulgare)* growing regions of the West Bank, Palestine (Abu-Alrub, Joma and Christianse), 179
Propagation and management of *Gliricidia sepium* planted fallows in sub-humid eastern Zambia (Chintu, Mafongoya, Chirwa, Kuntashula, Phiri and Matibini), 341
Quantitative Analysis of Data from Participatory Methods in Plant Breeding edited by Bellon, M. R. and Reeves, J. reviewed by John E. Bradshaw, 141
Rain-fed crops: agronomic characters, yield and economic revenue of safflower in comparison with other crops in a high-elevation, semi-arid Mediterranean environment (Yau), 453
Rangelands of the Arid and Semi-Arid Zones in Uzbekistan, edited by Gintzburger, G., Toderich, K. N., Mardonov, B. K. and Mahmudov, M. M., reviewed by J. M. Suttie, 394
Research Management Guidelines 6 – Improving Agricultural Research at Universities in Sub-Saharan Africa: A Study Guide, by Michelsen, H., Zuidema, L., Hoste, C. and Shapiro, D., reviewed by R. S. Musangi, 274
Research Towards Integrated Natural Resources Management. Examples of Research Problems, Approaches and Partnerships in Action in the CGIAR. Edited by Harwood, R. R. and Kassam, A. H., reviewed by John K. Coulter, 493
Response of late-planted cotton to the application of a growth regulator *(chlorocholine chloride*, Cycocel 75) (Mondino, Peterlin and Garay), 381
Rice: Influence of mineral fertilizer application and plant nutrition on plant-parasitic nematodes in upland and lowland crop in Côte d'Ivoire and its implications in long term agricultural research trials (Coyne, Sahrawat and Plowright), 245
Rootstock effects on cocoa on Sabah, Malaysia (Pang Thau Yin), 445
Rural Planning in Developing Countries: Supporting Natural Resources Management and Sustainable Livelihoods, by Dalal-Clayton, B., Dent, D. and Dubois, O., reviewed by Mike Collinson, 143
Safflower agronomic characters, yield and economic revenue in comparison with other rain-fed crops in a high-elevation, semi-arid Mediterranean environment (Yau), 453
Saline drainage water: effect of its use in irrigation on yield of winter (rabi) forage crops (Yadav, Kumar, Lal and Batra), 65
Seed priming (on-farm): Effect on emergence, growth and yield of cotton and maize in a semi-arid area of Zimbabwe (Murungu, Chiduza, Nyamugafata, Clark and Whalley), 23
Seed priming (on-farm): Use in improving the yield of Mung Bean *(Vigna radiata)* in the North West Frontier Province of Pakistan (Rashid, Harris, Hollington and Rafiq), 233
Seeds of Concern - The Genetic Manipulation of Plants, by Murray, D. R., reviewed by Bill Macfarlane-Smith, 139
Selection and interaction of genotype and environment in true potato seed breeding (Ortiz and Golmirzaie), 99

Soil, Land and Food: Managing the Land during the Twenty-First Century, by Wild, A., reviewed by Dennis Greenland, 139
Soil Fertility Decline in the Tropics, by Hartemink, A. E., reviewed by Alan Scaife, 393
Sole and intercrops: Water uptake and use by morphologically contrasting maize/pea cultivars in temperate conditions (Kanton and Dennett), 201
Straw and grain for whole plant value: implications for crop management and genetic improvement strategies (Schiere, Joshi, Seetharam, Oosting, Goodchild, Deinum and Van Keulen), 277
Striga: Farmers' perception of the problem and its control in northern Nigeria (Emechebe, Ellis-Jones, Schulz, Chikoye, Douthwaite, Kureh, Tarawali, Hussaini, Kormawa and Sanni), 215
Striga hermonthica: An assessment of integrated control and early adoption by farmers in northern Nigeria (Ellis-Jones, Schulz, Douthwaite, Hussaini, Oyewole, Olanrewaju and White), 353
Subsoil nitrogen dynamics as affected by planted coppicing tree legume fallows in eastern Zambia (Chintu, Mafongoya, Chirwa, Mwale and Matibini), 327
Sufetula spp.: Discovery of the insect pest, a factor limiting yields in a coconut plantation on peat (Bonneau, Husni, Philippe, Somchit, Jourdan and Lubis), 53
Sugar cane: Impact of fallowing and green manuring on soil conditions and its growth (Nixon and Simmonds), 127
Supplemental pollination – increasing olive *(Olea europea)* yields in hot, arid environments (Ayerza and Coates), 481
Sustainable Agriculture. Second Edition, by Mason, J., reviewed by Sayed Azam-Ali, 391
Sustainable Food and Agriculture by Malkina-Pykh, I. G. and Pykh, Y. A., reviewed by Carol Duffus, 140
Sustainable Soils: The Place of Organic Matter in Sustaining Soils and their Productivity, by Wolf, B. and Snyder, G. H., reviewed by Dennis Greenland, 392
Swaziland: Impact of fallowing and green manuring on soil conditions and the growth of sugar cane (Nixon and Simmonds), 127
Syria: Mixed farming sysems in transition: The case of five villages along a rainfall gradient in the north-west (Rischkowsky, Thomson, Shnayien and King), 109

Tillage for conservation: the impact of potassium application on crop yields in a participatory on-farm trial in the Ethiopian highland vertisols (Astatke, Mamo, Peden and Diedhiou), 369
Towards a regional approach to research for the CGIAR and its partners (de Janvry and Kassam), 159
Transhumant Grazing Systems in Temperate Asia. Plant Production and Protection Series No.31, Edited by Suttie, J. M. and Reynolds, S. G., reviewed by J. Morrison, 495
Transition of mixed farming systems: The case of five villages along a rainfall gradient in north-west Syria (Rischkowsky, Thomson, Shnayien and King), 109
Tree legume fallows: Nitrogen dynamics in the subsoil as affected by planted coppicing tree legume fallows in eastern Zambia (Chintu, Mafongoya, Chirwa, Mwale and Matibini), 327
Trees, Crops and Soil Fertility. Concepts and Research Methods, edited by Schroth, G. and Sinclair, F. L., reviewed by Berwyn L. Williams, 143
Triticum aestivum See Wheat

Uganda: Farmer participatory evaluation of legume cover crop and biomass transfer technologies for soil criteria, preference ranking and logit regression analysis (Nyende and Delve), 77
United Kingdom: Water uptake and use by morphologically contrasting maize/pea cultivars in sole and intercrops in temperate conditions (Kanton and Dennett), 201
USA: Supplemental pollination – increasing olive *(Olea europea)* yields in hot, arid environments (Ayerza and Coates), 481

Vegetable production: Potential of biomass transfer technologies in sustaining vegetable production in the wetlands *(dambos)* of eastern Zambia (Kuntashula, Mafongoya, Sileshi and Lungu), 37
Vertisols of the Ethiopian highlands: the impact of potassium application on crop yields in a participatory on-farm conservation tillage trial (Astatke, Mamo, Peden and Diedhiou), 369
Vigna radiata See Mung Bean

Water Dynamics in Plant Production, by Ehlers, W. and Goss, M., reviewed by Iain M. Young, 395
Water Productivity in Agriculture: Limits and Opportunities for Improvement, edited by Kijne, J. W., Barker, R. and Molden, D., reviewed by G. L. Squire, 395
Water uptake and use by morphologically contrasting maize/pea cultivars in sole and intercrops in temperate conditions (Kanton and Dennett), 201
Weed Ecology in Natural and Agricultural Systems, by Booth, B. D., Murphy, S. D. and Swanton, C. J., reviewed by G. R. Squire, 272
Weeds and Weed Management on Arable Land – An Ecological Approach, by Hakansson, S., reviewed by David Johnson, 270

West Bank, Palestine: Production methods and farming in the major barley *(Hordeum vulgare)* growing regions (Abu-Alrub, Joma and Christianse), 179
Wetlands *(dambos)* of eastern Zambia: Potential of biomass transfer technologies in sustaining vegetable production (Kuntashula, Mafongoya, Sileshi and Lungu), 37
Wheat *(Triticum aestivum)*: Participatory evaluation of the performance of some improved varieties in the Jijiga plains of eastern Ethiopia (Jalleta), 89
World Agriculture: Towards 2015/2030. An FAO Perspective, edited by Bruinsma, J., reviewed by John K. Coulter, 269

Yield responses of winter (rabi) forage crops to irrigation with saline drainage water (Yadav, Kumar, Lal and Batra), 65
Zambia: Potential of biomass transfer technologies in sustaining vegetable production in the wetlands *(dambos)* (Kuntashula, Mafongoya, Sileshi and Lungu), 37
Zambia: Propagation and management of *Gliricidia sepium* planted fallows in the sub-humid east (Chintu, Mafongoya, Chirwa, Kuntashula, Phiri and Matibini), 341
Zambia: Subsoil nitrogen dynamics as affected by planted coppicing tree legume fallows in the east (Chintu, Mafongoya, Chirwa, Mwale and Matibini), 327
Zea mays See Maize
Zimbabwe: Effect of on-farm seed priming on emergence, growth and yield of cotton and maize in a semi-arid area (Murungu, Chiduza, Nyamugafata, Clark and Whalley), 23
